

# REALTORS®: DO WE WANT TO BE A NATION OF HOMEOWNERS OR A NATION OF RENTERS?

CONGRESS IS CONSIDERING A TAX REFORM PLAN THAT COULD HARM YOU, YOUR BUSINESS AND YOUR CLIENTS.

Millions of middle-class homeowners could see a tax hike under this plan. In fact, if you own a home, your taxes will likely go up under the tax reform plan Congress is considering.

**95%** of U.S. households would lose homeownership tax benefits under the current tax reform plan.

Removing tax incentives means fewer home buyers and lower home values.

Homeowners in all 50 states would be double-taxed on the money they pay for state/local property taxes.

## THE NATIONAL ASSOCIATION OF REALTORS® WANTS CONGRESS TO KNOW:

- Tax reform should first do no harm to homeowners.
- America's homeowners shouldn't pay for corporate tax cuts.
- The national housing and job markets can't afford any dent to economic activity, especially in those areas hard hit by hurricanes, flooding and wildfires.

**JOIN US, AND TELL CONGRESS THAT REALTORS® STAND FOR HOMEOWNERSHIP.**

**TEXT ACTION TO 30644**
